Corporate Photography

Corporate Photography & Video

Capability Statement

Professional photography and video production for corporate events, workforce photography and business communications.

OUR BUSINESS

Orlando Sydney Corporate Photography

Orlando Sydney Corporate Photography provides professional photography and video production services for businesses, associations, government organisations and event organisers.

Based in Surry Hills, near Sydney CBD, we bring more than 15 years of experience and over 1,100 completed sessions to corporate events, workforce photography and business communications.

We work with marketing and communications teams, event organisers, executive assistants and corporate clients to plan and deliver photography and video suited to their business requirements.

Our production services range from individual photography assignments to major conferences, multi-day events and coordinated productions requiring photography, videography and on site editing.

Photography and video post-production is managed locally, with human led editing and an emphasis on consistent, ready to use digital content.

Our Experience

15+

Years of experience

1,100+

Completed sessions

Sydney based

Local production and post production; national work by arrangement

Scalable production

From an individual creative to coordinated photography and video teams

Selected Clients & Sector Experience

Brookfield

Government & Public Sector - Photography and video for official events, public sector organisations and communications.

Event Photography & Video Services

Professional photography and video production for conferences, corporate events, exhibitions and business functions.

We work with event organisers, marketing and communications teams, associations and businesses to document key proceedings, people, branding and the overall event experience. Our production services scale from individual event photographers to coordinated teams covering larger events and multi day programmes.

Our Capabilities

Conferences & Corporate Events

Keynote presentations, conferences, summits, executive meetings, networking functions, gala dinners and awards.

Trade Shows & Exhibitions

Exhibition stands, sponsor branding, product demonstrations, delegates and industry engagement.

Event Video Production

Highlight videos, interviews, vox pops and footage of key proceedings for marketing and post event communications.

Multi Day & Large Scale Events

Coordinated photography and video coverage across multiple sessions, locations and event programmes.

Production & Delivery

We coordinate coverage around the event programme and agreed priorities, with additional creative personnel, on-site editing and rapid highlight delivery available according to project requirements.

Finished photography and video is prepared for the client's intended marketing, communications and event reporting requirements.

02 / OUR CORE SERVICES

Corporate Headshots & Workforce Portraits

Professional portraits for executives, leadership teams, employees and organisations requiring consistent workforce photography.

We provide headshot and portrait services at client offices, workplaces and corporate events, with production arrangements tailored to your needs.

Our Capabilities

Executive Portraits

Individual portraits for leadership profiles, corporate communications, annual reports and business publications.

Workforce Headshots

Consistent professional photography for employees, departments, teams and larger organisations.

Mobile Studio Services

Professional portrait photography using mobile lighting and studio arrangements at offices and suitable workplace locations.

Event Headshot Stations

Professional portraits for conference delegates, event participants and attendees.

Production & Delivery

Our structured photography sessions help organisations maintain a consistent visual style across their workforce.

Professional image selection, individual editing and delivery in high resolution and web ready formats provide practical assets for business profiles, websites and corporate communications.

Commercial and Corporate Communications Photography & Video

Professional photography and video production for marketing, organisational communications and business content.

We work with businesses and communications teams to create visual content representing their people, workplaces, operations and services. Assignments range from individual commercial photography sessions to coordinated photo and video productions for marketing campaigns, corporate reporting and internal communications.

Our Capabilities

Commercial & Workplace Photography

Professional imagery of business premises, workplaces, facilities, products, operations and people at work.

Executive & Internal Communications

Photography and video for leadership communications, staff engagement, internal publications and organisational updates.

Marketing & Employer Branding

Visual content for websites, marketing campaigns, recruitment, employer branding and business publications.

Corporate Video Production

Business interviews, executive messages, workplace video and content for corporate communications.

Production & Delivery

We develop the production approach around the communication objectives, locations, participants and intended use of the finished content.

Photography and video post production is managed locally, with human led editing and final media supplied in formats suitable for business communications and marketing channels.

PRODUCTION & DELIVERY

Our Production Standards

Professional production & media delivery. Specific crew arrangements, technical deliverables and schedules are confirmed for each assignment.

Briefing & Project Coordination

We work directly with clients and organising teams to establish objectives, schedules, key personnel, location requirements, access arrangements and agreed deliverables.

Professional Production & Crew Capacity

Our services scale from individual photographers and videographers to coordinated production teams. Additional creative personnel and on site editing are available according to project requirements. Professional equipment and camera and lens redundancy support production reliability.

Human Led Post-Production

Photography and video post production is managed locally, with professional image selection, individual editing and consistent colour correction. We produce practical visual content for professional and organisational use.

Photography & Video Delivery

Edited photography is supplied in high resolution and web ready formats through our own private client gallery portal. Standard photography turnaround is 3–7 days; overnight, same day and on site editing are available by prior arrangement. Video is captured and edited to the agreed production specification, typically in 4K, with resolution, codec, bit depth and delivery format tailored to project requirements.

Confidentiality & Media Handling

Client photographs and video are managed through controlled access storage and delivery systems. We respect client confidentiality and do not intentionally submit client media to third party generative AI training services.

Insurance, Safety & Licensing

Orlando Sydney Corporate Photography maintains \$10 million Public Liability Insurance and follows relevant workplace health and safety requirements. A current Certificate of Currency can be supplied on request. Commissioned media is provided with broad organisational usage rights, subject to the project licence and applicable third-party restrictions.

WORK WITH US

Discuss Your Project

Whether you are planning a corporate event, developing new communications content or coordinating workforce photography, we can help establish the production scope, crew and deliverables for your assignment.
